

Learning all about RSS feed

The Mafia has RSS feed, and I didn't have a clue as to how it works. So right now I am in a class teaching me all about it. Hmmmm....

I may not understand all of it yet, but am beginning to get the hang of it. So this blog is a test to tell me if I set things up right.

There's a lot of info to absorb in this class, and made especially difficult by stumbling across a site on Ostracods, that sounds like a blast. Ok, so I have a fascination for invertebrates, although I don't know of any that would make a good banjo head

Maybe squid skin?

Nah, but we all love the MOP they supply for our inlay.

Bye for now....

Lorna
